TEXT INSERTION

Hello Everyone, I am super excited to make discussion in the following fields:

- **DATA SCIENCE**
- **MACHINE LEARNING**
- **DEEP LEARNING**
- **COMPUTER VISION**
- **ARTIFICIAL INTELLIGENCE**
- **FRONT END DEVELOPMENT**
- **DEVOPS**
- **MLOPS**

SHAPE INSERTION

DATA SCIENTIST(ALICE)

Bob, the model is performing well in our testing environment. What's the best way to deploy it into production?

DATA ENGINEER(BOB)

Great news, Alice. We'll containerize the model using Docker for easy deployment. I'll set up a scalable infrastructure on Kubernetes to handle the production load. Have you considered A/B

DATA SCIENTIST(ALICE)

Yes, I was thinking of rolling out the new model gradually. A/B testing sounds like a good approach.

BUTTON DESCRIPTION

1. **Left Arrow Button:** A button that navigates to the previous page or step in a sequence.
2. **Right Arrow Button:** A button that navigates to the next page or step in a sequence.
3. **Reset Button:** A button that reverts settings or selections to their default state.
4. **Back Button:** A button allowing users to return to the previous screen or page in a navigation sequence.
5. **Information Button:** A button that provides additional details or context about a specific element, usually through tooltips or pop-up information.
6. **Help Button:** A button that opens a help menu or provides assistance to users by offering relevant information and guidance.
7. **Q&A Button:** A button that activates a feature allowing users to input queries in natural language, often used for interactive data exploration.
8. **Bookmark Button:** A button enabling users to save or mark a specific state or configuration for quick access or reference later.
9. **Blank Button:** A button with no predefined function, often used for customization or user-specific actions.
10. **Apply All Slicers Button:** A button that applies changes made to multiple slicers simultaneously, typically used in data visualization tools.
11. **Clear All Slicers:** A button that resets or clears all filters and selections made through slicers in a data visualization or dashboard.
